Principles

As a manufacturer of high-quality printed folding boxes and labels for the food, cosmetic and tobacco industries, we are committed to the following principles:

- The customer comes first in determining the quality of products and services we deliver.
- Due to the integrated quality, environment, energy, hygiene, food safe, health and safety management system, a high process and product standard is ensured.
- We seek to identify and eliminate manufacturing faults and their causes as they occur. Applying the necessary modifications to the manufacturing process should preclude any recurrence.
- All employees are also customers, suppliers and team members when at work and all of them contribute to the company's success.
- The management ensures the continuous training, qualification and motivation of all employees in order to achieve the company goals and to raise awareness for quality, hygiene, food safety, health, the environment and safety.
- The management undertakes to protect employees by preventing injuries and illnesses, promoting occupational health and safety and improving standards of hygiene and food safety.
- We protect the environment and resources by optimising efficient uses, and by reducing pollutant emissions and waste, and commit ourselves to continuous improvement of environmental performances, energy input, energy consumption, and energy efficiency, and to compliance of referring requirements.
- The management and the employees undertake to:
 - Comply with human rights
 - Comply with international labour and social standards
 - Prevent discrimination, bribery, fraud and corruption
 - Comply with customer standards
 - Comply with legal requirements
